

**HELPFUL TIPS FROM GRIFFIN DENTAL LAB**

## **Zest Locator Fixed**

Griffin Dental Lab is excited to offer a new option for locator implant retained prosthesis that utilizes locator abutments! With over four million patients, Zest Locator is the most successful edentulous, full-arch solution. Using the same tried and true locator abutments, we can now offer your practice **Removable** or **Fixed** dental prosthesis. These offer the same benefits of a screw retained prosthesis, but at a more affordable cost.

New **AND Existing** patients can take advantage of Locator Fixed.

Patients with a minimum of four locator abutments can utilize Locator Fixed Housing System. The proprietary inserts secure the prosthesis in place, and the patient will not be able to remove it. It has the enhanced strength and security of a screw retained prosthesis.

### **BENEFITS OF LOCATOR FIXED**

- Reduce chair time & procedure cost.
- Reduce need for bone reduction.
- More aesthetic, no holes in appliances to color match/fill in.
- Less acrylic than standard locator case.
- Thousands of dollars cheaper than screw retained so more can afford.

Locator Fixed is an affordable answer to restoring your edentulous patients' self-confidence, self-esteem, and quality of life. Please feel free to contact us at Griffin Dental Lab, as we are working closely with Zest Dental Solutions, for more information on implant solutions!
